Data Governance Academy

Session 1 — Data Governance *for* LEA Executives

Demystifying Data Governance for busy leaders!

Starting in 2026, LEAs will be eligible for Differentiated Assistance (DA) based on CALPADS data quality. Persistent and routinely cited data quality challenges at California's LEAs center on siloed work and a lack of coordinated, enterprise-wide data governance.

This course provides actionable strategies to help leaders implement the structures, policies, and accountability needed to elevate data quality in CALPADS and across the enterprise.
