1 Introduction

1.1 Purpose of the Annual Report

The *Annual Report* provides the California Department of Education (CDE) a summary of the work performed by the Fiscal Crisis and Management Assistance Team (FCMAT)/California School Information Services (CSIS) to support and maintain the California Longitudinal Pupil Achievement Data System (CALPADS) during fiscal year 2023-24. For readability purposes, “CSIS” will be used throughout this report to refer to FCMAT/CSIS.

CALPADS is governed by the CDE, and as excerpted from section 2 of the *Statement of Work for FCMAT/CSIS 2023-24 Support of CALPADS* (SOW), the CDE’s overarching goals were:

1. Continue to align and bring transparency to how the data local educational agencies (LEAs) submit to CALPADS are used for reporting (e.g. DataQuest) and accountability (e.g. California School Dashboard).
2. Continue to improve CALPADS performance, efficiency, and data quality to: (1) facilitate the submission, review, and use of data by LEAs, (2) facilitate the use of data by the CDE to meet its demands, and (3) enable CDE and FCMAT/CSIS staff to more efficiently maintain and update CALPADS.
3. Continue to reduce LEA reporting burden and at the same time increase data quality and use.

CSIS completes work on CALPADS on behalf of and under the direction of the CDE. This annual report provides the CDE with a description of the CALPADS activities completed by CSIS during the year, visibility into the budgeted and actual expenses, the status of goals, potential opportunities for the next year.

1.2 Document Conventions

The first approved version of the document will be numbered 1.0. Minor revisions (that is, format, spelling, or clarification) will retain the major version number and increment the revision number to the right of the decimal (for example 1.0, 1.1, 1.2...).

1.3 Approval Authority

The CSIS Chief Operations Officer shall approve this *Annual Report* on behalf of CSIS before submitting it to the CDE. The Director of the Educational Data Management Division shall approve this *Annual Report* on behalf of the CDE.

2 *Planned Work for FY 2023-24*

The annual report mirrors the structure of the SOW. Section 2.2 of the SOW identifies planned work in support of the CDE's overarching goals, and section 3 of this report describes accomplishments under the eight major work activities for CSIS under those goals. The SOW also describes overarching development and implementation priorities; an excerpt from the SOW is included in Appendix A for reference. As described in the SOW, the CDE can amend the SOW through the quarterly review process with CSIS. Throughout the year, change requests were added, deleted, or rescheduled through this ongoing review and planning process between the CDE and CSIS. Appendix B itemizes these change requests and their disposition.

Also, as part of the planning process, the CDE and CSIS developed an implementation schedule of major activities, milestones, and other important dates to coordinate the work. Consistent with prior practices, the schedule is based on timelines required to meet state and federal reporting requirements and supported by the agile software development methodology. The CALPADS team organizes its work using sprints with a cadence of approximately one week between each software release to production.

The implementation schedule included:

- Software development and testing sprint schedules,
- Data refreshes to support quality testing in the staging environment,
- Production releases,
- Proposed "block-out" dates in production when no deployment can be done to ensure the availability of the system for LEAs as a certification deadline nears,
- Initial LEA approval and SELPA approval dates,
- Certification and amendment window deadlines, and
- Service Desk holidays.

The CDE and CSIS agreed the implementation schedule would be updated when changes were approved by the CDE. The CDE approved releases during "block-out" dates to ensure software fixes were available for LEAs when they needed them to certify data. The actual release schedule for the year is itemized and included in Appendix C.

3 *Work Completed in FY 2023-24*

This section of the annual report gives an overview of major efforts under each of the goals and major work activities described in section 2.2 of the SOW. Highlights of the major work completed under the SOW include the following:

1. CSIS supported LEAs, student information systems (SIS) vendors and special education data systems (SEDS) vendors along with LEAs with custom student information systems through efforts such as:

- Collaborated with the CDE's Educational Data Management Division, Technology Services Division, Analysis, Measurement & Accountability Reporting Division, Special Education Division, and Curriculum Frameworks and Instructional Resources Division teams through joint management meetings approximately every two weeks to coordinate clear and timely communications regarding upcoming CALPADS system changes;
 - Implemented a communication plan that included planning, drafting, reviewing, and disseminating information through multiple letters to superintendents, including 27 CALPADS Flashes, three regional CALPADS meetings (each presented four times), bi-weekly vendor conference calls, and bi-monthly LEA/county office of education (COE) user group meetings;
 - Presented trainings together with the CDE, as well as independently, at
 - county offices of education,
 - various conferences and workshops, such as those sponsored by California IT in Education (CITE), FCMAT Chief Business Officer (CBO) Mentor Program, and Association of California School Administrators (ACSA) School Business Academy,
 - Aeries (fall and spring) SIS user group, Aequitas SIS User group, Small School Districts' Association (SSDA) conference, Charter School Association and CodeStack (SEIS) Conference;
 - Presented informational updates at California County Superintendents (CCS) services committee meetings, including Technology Services Committee (TSC) and Business Administration Services Committee (BASC).
2. CSIS provided LEAs student data privacy and confidentiality training, including:
- Tracked special education local plan area (SELPA) users for student data privacy training activities using a learning management system (LMS); and
 - Offered a PowerPoint template that LEAs can use as a resource to reinforce key privacy and confidentiality concepts as they train local staff on data privacy best practices.
3. CSIS assisted the CDE and LEAs with analysis and documentation of issues, change requests, and business process reengineering, including:
- Collaborated with the CDE CALPADS Operations Office in weekly change request and issue management meetings to discuss system enhancements, data population practices, and a variety of topics such as the restructuring of the special education (SPED) file, data discrepancy UI refresh cycle, course code changes to support assignment monitoring, issues, and other prioritized change requests;
 - Continued to collaborate with the CDE Special Education Division through weekly meetings to clarify business rules, new requirements, LEA/vendor support, participate in weekly Office Hours and communications;

- Hosted weekly Q&As to provide LEAs an additional support channel;
 - Moderated the CALPADS two-way listserv;
 - Worked with the CDE on long-term planning priorities, including planning and analyzing future change requests;
 - Changed the FY 2023-24 Fall 1, EOY 3, and EOY 4 requirements and specifications for the students with disabilities (SWD) data redesign, including:
 - refining all certification data discrepancies (CDDs) to consider only data within the current academic year;
 - adding new SELPA monitoring reports; and
 - restructuring the career technical education (CTE) data collection to separate non-completers and completers for greater data accuracy.
4. CSIS worked on CALPADS maintenance and operations activities, including:
- Assisted the CDE with the file submission performance improvement;
 - Completed tasks related to software development, testing, configuration/deployment for multiple CALPADS environments (testing, staging, and production) and production support per the release schedule approved by the CDE;
 - Deployed approximately 48 releases including patches consisting of 546 user stories and 661 bug fixes to CALPADS;
 - Maintained and published the CALPADS Known Issues List on a daily basis;
 - Completed CALPADS Service Desk intake, incident ticket and service request, resolution, and escalation;
 - Configured and maintained an environment to allow LEAs to test drive the students with disabilities (SWD) data redesign and navigation as part of user acceptance testing (UAT); and
 - Continued to maintain the staging environment and support SEDS and SIS vendors as they tested their systems with CALPADS changes.
5. CSIS updated automated testing and refined requirements, software development, and testing processes to improve quality outcomes, including:
- Shifting the testing strategy to significantly increase automated unit tests, making tests performant and the system more resilient;

- Unit tests increased from 224 in 2020-21 to 7,113 in 2021-22 to 10,938 in 2022-23 to 9876 in 2023-24;
 - Reconfigured and consolidated down the grouping of the user interface based automated test cases from 1,491 test cases in 2020-21 to 1,003 in 2021-2022 to 1,320 in 2022-23 to 1,359 in 2023-24 after the removal of SPED and SSRV anomalies (DDs), IVRs, and File Submission related tests;
 - Continued peer review processes for requirements, development, and testing;
 - Collaborated with the CDE's senior technical team on system operations and enhancements;
 - Hosted demonstrations of completed software to improve shared understanding of system quality;
 - Held continuous service improvement meetings to assess standard operating procedures, plan and process improvements; and
 - Reviewed and refined standard operating procedures, including Change Management, Requirements Management, Sprint, Software Development, Testing, Service Desk, Client Training, and Continual Service Improvement.
6. CSIS trained and supported LEAs for Fall 1, Fall 2, EOY 1, EOY 2, EOY 3, EOY 4, cohort processing, student data privacy, and statewide student identifier (SSID) maintenance, through the following activities (additional detail can be found in Appendix D):
- Assessed LEA data coordinator knowledge, skills, and ability to resolve all validation errors one month before deadlines and placed LEAs into groups to provide users with tailored training and support;
 - Re-assessed LEAs based on a new metric of zero certification fatal errors two weeks prior to the deadline as a revised measure of local capacity;
 - Grouped LEAs based on these new assessments and their anticipated support needs into categories. In 2022-23, a fourth category was added to focus support on LEAs that consistently started late. At the end of the fiscal year, the numbers of LEAs in each group were:
 - regular late starters: 73, decrease from 83
 - requiring the highest level of support: 407, an increase from 312
 - requiring some support: 785, an increase from 756
 - requiring lower levels of support: 691, a decrease from 815
 - Continued to expand video offerings on the YouTube channel and tracked CALPADS LEA data coordinators' training course completions in the LMS;
 - Continued identification of and targeted support for the "new user" cohort group, including monitoring completion of the new user training program in the LMS;

- Updated CALPADS training courses based on workflow, SSID, and multiple identifier (MID) process changes stemming from the file submission performance improvement project;
 - Presented behavioral incident reporting in a joint training session with CDE for nonpublic and nonsectarian schools (NPS);
 - Increased content in the CALPADS User Manual, a web-based resource, with direct links to more short video clips;
 - Hosted Q&A meetings once a week for timely information updates and assistance; and
 - Monitored LEA progress toward certification for Fall 1, Fall 2, EOY 1, EOY 2, EOY 3, EOY 4 and provided technical assistance.
7. CSIS assisted LEAs in developing and implementing strategies to improve the accuracy and timeliness of CALPADS data, including:
- Developed a skills catalog¹ to complement the skill assessment survey and provide data coordinators a roadmap to advance their CALPADS competencies;
 - Monitored LEA progress in resolving validation errors;
 - Increased the visibility of how CALPADS data are used in federal and state reporting, including the consequences of failing to certify data;
 - Added information in the CRM on the “New User Cohort” training progress to provide appropriate, responsive assistance;
 - Provided the CDE with an analysis of errors experienced by LEAs linked to vendor systems; and
 - Implemented analytics in the CRM to automate LEA submission progress.
8. CSIS provided effective management, office support, and technology services to CSIS staff, including:
- Directed and supported CSIS operations, including human resources, fiscal, legal/contracts and business services functions;
 - Expanded use of Microsoft TEAMS for regular collaboration and Zoom for improved staff engagement during larger meetings and requiring staff to use video whenever that option is available for online meetings;

¹ The catalog organizes skills in the areas of time management, data leadership, curating and using quality data, critical thinking and being a coalition builder. Proficiency in these areas is critical to successful state reporting.

- Managed and maintained CSIS infrastructure, including CSIS-hosted CALPADS automated testing environments, and provided internal service desk services to support CSIS staff working on CALPADS activities; and
- Provided fiscal and program reports to stakeholders.

4 *Work Accomplished by Quarter*

The CSIS organization provides CALPADS maintenance and operations services through three departments: Requirements Management, Information Systems, and Client Services. Business analysts in the Requirements Management department assist the CDE in managing issues and change requests, conducting data analysis, eliciting and analyzing requirements and business rules, and generating user stories that document discreet units of software development and testing work activities. Software developers and testers in the Information Systems department code and unit test enhancements according to user stories and complete bug fixes escalated from the service desk by testing analysts/specialists. CSIS testers are responsible for system testing software code from CSIS and CDE developers. Network systems staff in the IS department manage and maintain the CSIS infrastructure. The Client Services department provides technical support to LEAs. Additionally, field support technicians/specialists train users and data analysts provide analysis on suggested changes.

The 2023-24 SOW Attachment A describes the CSIS software development processes at a high level, from requirements and change management to implementation, as following agile-scrum methods of planning, managing, and completing work activities with the goal to develop and fully test increments of functionality that can be released to production weekly. These high-level processes are further elaborated in CSIS standard operating procedures (SOPs) for end-to-end application lifecycle management. Adherence to SOPs increases the team's efficiency and effectiveness in understanding the impacts of change requests to the existing system. SOPs are used to identify scope, establish schedules, and plan capacity through collaboration with all partners. SOPs for development and testing ensure comprehensive traceability and best practices are used across processes.

CSIS leverages the IT Infrastructure Library (ITIL) best practices to govern its approach to CALPADS operations, training and support, and examines its agile application lifecycle practices for continuous service improvement quarterly and annually using key performance indicators for each SOP.

As part of the CALPADS team, CSIS business analysts, developers, testers, data analysts, trainers, and service desk agents assist the California Department of Education (CDE) in the maintenance, operations, and support of CALPADS. This section of the annual report provides a narrative of the work completed.

4.1 *First Quarter, July – September*

In the first quarter, the CALPADS team supported LEAs to certify their data on time for the EOY submission. The 2022-23 End of Year (EOY) submission ended August 25, 2023. When reviewing certification statuses and analyzing error rates weeks ahead of the deadline, it was clear that data

coordinators had access to a more stable system this year. All but two LEAs certified their EOY submissions.

SHORTER DEADLINES, NO EXTENSIONS

On September 5, 2023, county and district superintendents, charter school administrators and special education local plan area directors received [an important letter](#) proposing earlier deadlines for EOY submissions. The state indicators on the School Dashboard are based on EOY data. With shorter deadlines and no deadline extensions for EOY, the CDE and CSIS laid the groundwork to meet the intent of recent legislation to give the public access to School Dashboard data sooner.

NEW TECHNICAL ASSISTANCE REQUIREMENTS

Additionally, the letter described new technical assistance requirements beginning with the 2023-24 data submissions. Technical assistance requirements will apply to all districts that miss any submission certification deadline. [Flash 259](#) provided LEAs with additional details.

COUNTY OFFICES OF EDUCATION USER GROUP AND REGIONAL MEETING

Throughout the year, CSIS communicated that the CDE conducts meetings with county offices of education to obtain feedback on proposed new or revised features in CALPADS, development of learning resources, and how these meetings are important opportunities to provide input. CSIS shared the fiscal year's schedule of meetings with LEA partners.

USER ACCEPTANCE TESTING (UAT)

User acceptance testing (UAT) for the Data Discrepancy (DD) User Interface (UI) and SSID Match Tool launched in August 2023. Over three hundred LEAs were invited with sixty LEAs active in testing. UAT ran from August 21 2023 to September 18, 2023. UAT was used on a much smaller scale for the special education monitoring reports in January and the non-participation reports in May as the windows were very short and rolled out multiple times. These testing efforts improved CALPADS system and data quality with adjustments to the report business rules and a shorter turnaround for bug fixes.

The concurrent UAT for the Data Discrepancy User Interface (UI) and the SSID Match Tool began in early August and ran through the end of September 2023. Out of the 300 LEAs invited, approximately eighty attended the UAT kickoff, and an average of forty LEAs have been actively engaged in the process. This early involvement has provided valuable insights in the systems' performance and usability.

ANNUAL SYSTEM UPDATES, FALL 1 AND 2 SUBMISSIONS

On September 19, 2023, the CALPADS team implemented the annual system rollover changes. CSIS shared with LEAs that [Flash 260](#) contained further detail.

During this quarter, the CALPADS team prepared the software for the Fall 1 submission including:

- Revised all Local Control Funding Formula (LCFF) reports to include apportionment eligible students;

- Increased visibility with continuous access to discrepant data flagged via Fall 1 CDDs;
- Revised approximately fifty snapshot reports to show separately the new transitional kindergarten (TK) grade level; and
- Redirected the source for students with disabilities data reports to use the new data source files from the redesign.

4.2 Second Quarter, October – December

During the second quarter, the CALPADS team continued to prioritize bug fixes and enhancements to improve the overall user experience based on feedback from the file submission performance improvement project.

FALL 1 SUBMISSION

To ensure a successful submission, the CALPADS team closely monitored system performance and fast-tracked fixes. The CALPADS team also closely monitored LEA progress, ensuring they had ample time to review reports for accuracy. A sustained decline in error rates toward the zero-error threshold needed to certify is a marker for success. This year, rolling progress assessments identified LEAs as “at risk” when the remaining workload appeared concerning. For example, the CALPADS team conducted targeted support and worked with the CDE to engage LEA leadership if:

- As of November 1, the LEA had not submitted any data;
- As of November 1, errors, as a percentage of enrollment, exceeded 50%;
- As of December 1, errors exceeded 100; and
- As of December 11, errors exceeded 50.

The 2023-24 Fall 1 submission ended successfully on December 15, 2023. Only four LEAs missed the deadline; all LEAs certified by the end of the amendment window, January 26, 2024. In reviewing certification statuses and analyzing error rates in the weeks leading up to the deadline, it was clear that the joint effort between the CDE, CSIS, and LEA to be engaged and responsive to system performance, and data coordinator’s needs, and support from local leaders were integral to LEAs’ ability to meet shorter timelines.

FALL 2 SUBMISSION

The CALPADS team worked expeditiously to ready the system for Fall 2 processing and maximize the time available for LEAs to work on their data. Fall 2 processing began on December 18, 2023, and the CALPADS team’s work included:

- Revising all reports to show transitional kindergarten (TK) as a separate grade level;
 - Increasing visibility of poor-quality data with continual flagging of data discrepancies based on Fall 2;
 - Improving system performance by refactoring ODS extracts to return results on the same day instead of overnight; and
 - Continuing the ongoing updates of frequently used ODS reports to align with snapshot reports, ensuring LEAs have an accurate view of data in the system.

NEW USER COHORT SERVICE

By the end of the second quarter, CSIS had identified 67 participants in the 2023-24 new user cohort. CSIS trainers monitored their access and progress through course materials in the LMS weekly and provided one-on-one support to prepare inexperienced users for success in CALPADS data submissions.

This free service included eight basic courses that are self-guided; the program took new users approximately nine hours to complete. Each course included skill and knowledge assessments. Certificates were issued to participants upon successful completion of assessments.

4.3 Third Quarter, January – March

FALL 2 SUBMISSION

Similar to Fall 1, rolling progress assessments identified LEAs as “at risk” when the remaining workload appeared concerning. For example, the CALPADS team conducted targeted support and worked with the CDE to engage LEA leadership if:

- As of January 29, the LEA had not submitted any data.
- As of February 2, errors, as a percentage of enrollment, exceeded 10%.
- As of February 16, errors exceeded 100.
- As of February 23, errors exceeded zero.

The 2023-24 Fall 2 submission ended successfully on March 15, 2024 with all LEAs certified.

CSIS advised LEAs that a similar approach would be taken to identify at risk LEAs for EOY submission:

- As of June 21, the LEA had not submitted any data;
- As of June 28, errors, as a percentage of enrollment, exceeded 10%;
- As of July 5, errors exceeded 100; and
- As of July 12, errors exceeded zero.

In addition to supporting LEAs through Fall 2, CSIS assisted the CDE in capturing requirements, verifying, and validating business rules, coding, testing and deploying enhancements for several areas of the CALPADS system which included:

- Improving how we process groups of students and information about graduates. These changes will improve data quality by giving LEAs a clearer picture of diploma details that are used to calculate the California School Dashboard’s college and career indicator (CCI) measures.
- Making EOY 3 reports better for tracking student absenteeism. CALPADS will highlight when there are no absences and show how many graduates there were in previous years. These changes will make it easier for LEAs to spot unusual data quickly.
- Updating approximately 48 EOY snapshot reports and related extracts by adding the new transitional kindergarten (TK) grade level.

- Changing the data source for reports on students with disabilities to use the new source data file structures, along with related checks and reports, to handle additional special education data scenarios.

Additionally, this quarter, the new user cohort service expanded to include 83 participants.

4.4 Fourth Quarter, April – June

FALL 2 SUBMISSION

Analysis of the Fall 2 submission indicated that many LEAs had trouble managing their time. They were late finishing Fall 1, late getting started on Fall 2, and had to juggle dual workloads from Fall 2 and the federal Civil Rights Data Collection (CRDC). As CALPADS deadlines get shorter, it's clear that additional oversight and support from local leaders to review and analyze their LEA's data submission project workloads and timelines is crucial for success.

EOY SUBMISSION

The CALPADS team worked expeditiously to ready the system for EOY processing and maximize the time available for LEAs to work on their data. EOY processing began on May 7, 2024, and the team's work included:

- Improving data quality for essential information in EOY 3 by enhancing reports that include data used in determining Dashboard indicators. This included better tracking of student absenteeism, highlighting instances of perfect attendance, and showing how many graduates there were in previous years. Communication and guidance on reporting key EOY data will be reported on the CALPADS communications webpage.
- Revising all EOY reports to show transitional kindergarten (TK) as a separate grade level.
- Changing the data source for reports and validations on students with disabilities to use the redesigned file structures to handle additional special data scenarios.

From our review of many years of data submissions and working to support LEAs, those that meet milestones and do not fall into the at-risk category have sufficient time to review their reports for accuracy and completeness and can certify their submission on time.

NEW USER COHORT SERVICE

Additionally, this quarter, the new user cohort service expanded to include 129 participants. From those that completed the program, they indicated that local leadership support – allowing new LEA data coordinators sufficient time to complete the courses in addition to their other duties – was critical to their ability to be successful.

ERROR ANALYSIS

Starting from the Fall 2 submission, CSIS began providing the CDE with additional detail for error analysis. New CALPADS system management reports list certification errors attributed to individual vendors. In the fourth quarter, CSIS developed several dashboards updated daily with data from the

CALPADS certification reports, enabling comprehensive and consistent monitoring of LEA progress through the submission window.

The new management reports collate information from diverse data sources and are flexible and adaptable. Because of the fine-grained customization, reports can be fine-tuned and distributed to individual vendors, using data solely derived from their LEAs.

Far from just being error tracking tools, the CALPADS team have received feedback that these reports are a constructive guide for vendors. They assist vendors in recognizing areas within their applications that could gain from improved data validation strategies. By pinpointing these potential enhancements, vendors are well equipped to refine their systems, which results in superior data management and a smoother certification process for LEAs.

INFRASTRUCTURE OPERATIONS AND MAINTENANCE

CSIS maintains the hardware and software necessary to fulfill its obligations under the annual scope of work. CSIS optimized our automated testing resources with the use of Kubernetes cluster nodes, enabling us to flexibly scale resources during automated testing procedures. The CSIS infrastructure team responded to 645 technical support tickets from staff working on CALPADS, including the following additions:

- Servers: Two servers were purchased to enhance system performance and reliability.
- Laptops: Nine laptops were acquired to support staff productivity.
- Remote Console Access Server: Facilitates remote management and troubleshooting.
- KVM Console: Enables efficient control of multiple servers from a single workstation.
- Environment Monitoring: Upgraded for optimal data center conditions and early issue detection

CSIS enhanced its infrastructure security capabilities by patching its systems to the latest versions and implemented multi-factor authentication (MFA). MFA is now required for everyone who accesses CALPADS software code or CSIS systems. In 2023-24, CSIS continues to perform email phishing simulations to assess risk and identify any need for additional training. The CSIS infrastructure operations and maintenance team reviews monthly independent IT security assessments to identify and resolve any network vulnerabilities and configuration issues. Annually, all CSIS staff attend the CDE's privacy training course. Through these measures, CSIS continues to uphold a robust, secure, and efficient technology framework to support successful outcomes in its responsibilities for CALPADS maintenance and operations.

5 *Budgeted and Actual Expenses for FY 2023-24*

Revenues

Salaries and salary-driven benefits costs continue to be the largest expense. FCMAT/CSIS staff receive cost of living adjustments (COLA) each year as part of Kern County Superintendent of Schools (KCSOS). Neither FCMAT nor CSIS are consulted in the classified union negotiations, but CSIS is bound to the outcomes of those negotiations. Other revenue from fees and contracts increased from the beginning budget to the estimated actual budget to cover COLA for the Data Reporting Liaison.

FCMAT/CSIS had projected a shortfall and managed savings in 2022-23 wherever possible by reducing staffing and expenses and using reserves. FCMAT/CSIS was fully staffed in 2023-24, including consultants filling roles as two programmer analysts, one testing analyst, a part-time testing analyst, and one trainer.

Expenditures

Salaries and Benefits: With cost increases and changes in workload due to the prior year's budget trailer bill for shorter timelines to support earlier publishing of the California School Dashboard, FCMAT/CSIS requested and received an augmentation for additional staff to meet workload needs, specifically testing software so that functionality becomes available for LEA use sooner and providing additional capacity for CALPADS technical user support and LEA leadership support, and revenue to cover increases in existing operating expenses due to inflation. To meet the workload needs, FCMAT/CSIS hired several new positions in 2023-24 mid-year using the augmentation: one implementation specialist, one testing analyst, and one testing analyst consultant. These mid-year hires resulted in a lower estimated actuals in salaries and benefits compared with the beginning budget.

The third testing analyst position is expected to be filled on or after July 1, 2024 when one of the testing analyst consultants has completed his contract obtained the requisite employment visa. The final role provisioned by the state appropriation augmentation was a data analyst position; this role or similar is expected to be filled in 2024-25, after the retirement of the Client Services Officer.

Rents, Leases and Repairs: The estimated total for rents, leases, and repairs reflects similar expense figures compared to the prior year. The beginning budget takes into account scheduled increases based on long-term lease agreements for office and data center space. This line included expenses for responsibilities for the shared areas of the building where the landlord recovers those costs from tenants each year. This amount varies from year to year, resulting in a lower estimated actual expense.

Supplies and Non-Capitalized Equipment: The supplies and non-capitalized equipment expenses were consistent with the expectation to continue to support telework. Estimated actual expenses are lower due to managed savings resulting from delaying procurements to plan ahead for a relocation of CSIS office space and data center when the current lease expires in 2024-25.

Travel and Conference: At the start of the pandemic in 2020, CSIS began teleworking, but CSIS did not bring all staff back together in-person for professional development. In 2023-24, we brought all staff back to the office for in-person professional development; therefore, the travel/conference expense was slightly higher than the prior year.

Professional/Consultant Services: The professional/consultant services line reflects an amount necessary to be resilient to the short-term increase in workload for change requests added to the scope of work after the initial budget has been set. The staff augmentation services were funded through carryover funds.

Direct Costs: When CSIS staff have the capacity to assist on non-CALPADS projects, those direct costs are captured from other projects and returned to CALPADS. These costs vary year to year.

Capital Outlay: Expenditures for the fiscal year include key investments in technology infrastructure.

6 *Status of Goals*

6.1 Status of 2023-24 Goals and Improvements to Consider for 2024-25

In reflecting on the accomplishments of the past year, goals set forth in the 2023-24 *Statement of Work* were met through the CALPADS team's work activities.

Reflecting on the work of the past year, and in the spirit of continuous improvement and working better together, finalizing mutually agreed upon work processes consistent with best practices that are pragmatic in meeting the needs of the CALPADS team to deliver consistent, high-quality software and high-quality data to educational stakeholders should be the main focus of improvements to consider for next year. Accomplishing this goal through completion of the SOW for the next fiscal year and any supporting documents that further clarify the CDE and CSIS work processes is critical to our joint success in maintaining and operating CALPADS in a way that serves the larger TK-12 data ecosystem.

6.2 Goals for the 2023-24 Statement of Work

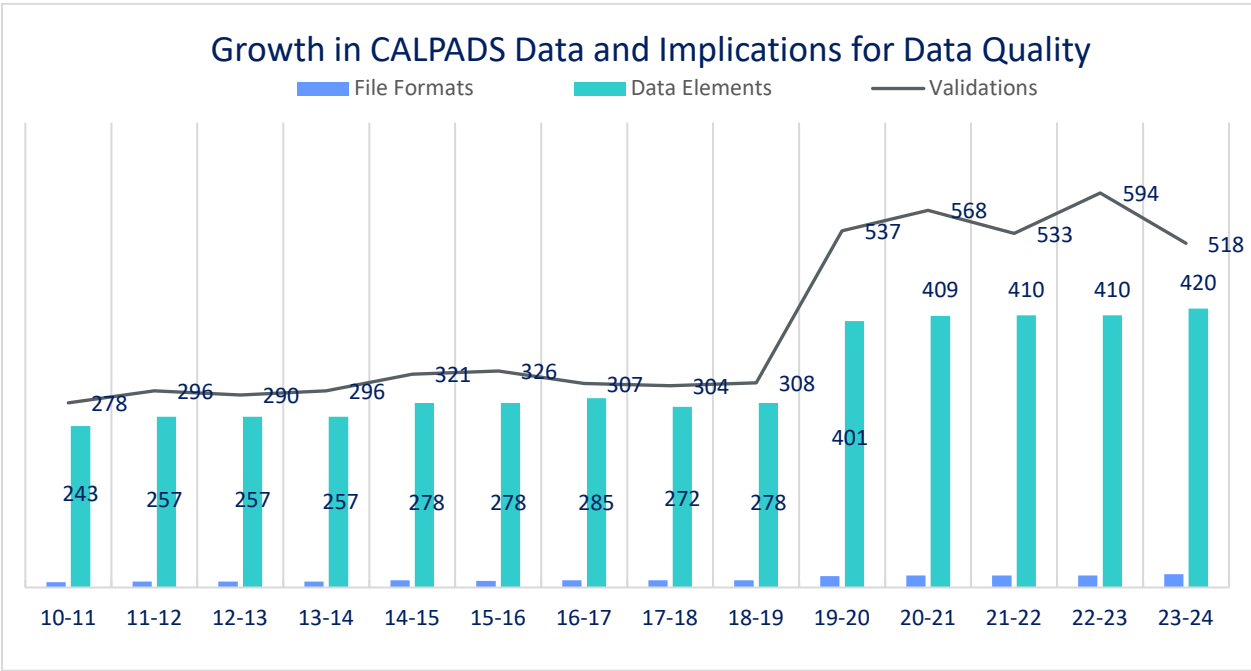

The CDE and CSIS are longstanding partners with mutual interest in advancing timely and accurate data for informed decision-making among educational stakeholders. CSIS looks forward to continued collaboration with the CDE to meet its vision and goals for the CALPADS application. The CDE recommended that the goals from 2023-24 should continue to apply in the next fiscal year and the CDE overarching goals and CSIS major work activities in support of goals have been incorporated into section 2 of the *Statement of Work for FCMAT/CSIS FY 2024-25 Support of CALPADS*. The CDE has approved the statement of work, and together with CSIS will be working on first quarter revision to reflect updates to the addition and disposition of change requests as well as ongoing capture and refinement of mutually agreed upon work processes.

7 *Summary*

In 2023-24, CSIS worked closely with the CDE to meet major work activities and build support among educational organizations for increased data quality and use. Engagements included virtual presentations as well as direct support to LEAs, student information system and special education data system vendors. In 2023-24, the CALPADS team improved engagement with end users, providing visibility into the status of the system, known issues and bug fixes on a weekly basis, and provided end users with opportunities to participate in user acceptance testing activities that gave LEAs and vendors an opportunity to work with system changes ahead of production implementation. Their participation in testing and feedback continues to be critical to making CALPADS successful.

The year continued a trend of ongoing changes for CALPADS with the intent of improving data quality and user experience that affected each submission period and will help to build a stronger data ecosystem for the state of California. The major accomplishments for 2023-24 included many system enhancements and bug fixes to CALPADS to provide educational partners with information to continue to build local capacity for data management.

Data quality remains a key focus for the CALPADS team, and the primary focus in 2023-24 was to build upon the work completed in 2022-23 from the file submission performance improvement project. This included improvements to system performance while also maintaining data quality. As seen in the chart below, the number of file formats and data elements stayed stable in CALPADS from 2022-23 to 2023-24. This stability allowed for a greater emphasis on enhancing processing speed while also refining the underlying logic and numerous validations.

As part of the CALPADS team, CSIS completed significant CALPADS work in 2023-24. Appendix G provides a detailed accounting of individual work items completed. CSIS will continue to help the CDE operate, maintain, and enhance CALPADS in an efficient and effective manner consistent with the CDE’s direction. CSIS remains committed to completing high-quality work in a mutual environment of continual improvement.

Appendix A – 2023-24 Development Priorities

As an aid to the reader, the following has been excerpted from Section 3.2 of the FY 2023-24 SOW:

3.2 Development and Implementation Priorities

FCMAT/CSIS will conduct activities related to maintaining and updating the software in the production environment, including defect fixes, developing, testing, and implementing changes. Development and implementation of changes to CALPADS includes the following primary activities:

- Identifying and analyzing issues or proposed new functionality, developing change requests to address issues or create new functionality, and developing requirements for programmers to follow to implement changes.
- Replicating and analyzing potential defects and identifying solutions.
- Developing, testing, configuring, and deploying defect fixes and changes for promotion to the production environment.
- Conducting User Acceptance Testing (UAT)

Specifically, FCMAT/CSIS development and implementation priorities will include:

- Fixing all Severity 1 and 2 defects, and high priority Severity 3 defects as identified by CDE and FCMAT/CSIS. (Goal 2)
- Implementing CALPADS high priority system enhancements to meet business requirements and technical changes (Goal 2) as specified in approved Change Requests (CRs) by:
 - Creating database tables
 - Implementing code sets and valid code combinations
 - Developing input validation rules (IVRs), data discrepancy (DD) rules and certification data discrepancy (CDD) rules
 - Developing user interfaces
 - Creating reports
 - Modifying existing IVRs and DDs/CDDs as needed
 - Modifying existing reports to point to new functions/tables
- Depending on resources, implement additional other smaller change requests as determined by CDE. (Goals 1, 2)

Enhancement priorities are established through CRs, which require approval from the CDE. The list of potential change requests, as of June 2023, are included in Appendix D – *2023-24 CALPADS Change Requests*, by release month. This list will be updated (new CRs added and others removed) and prioritized continuously by CDE and reflected in the quarterly updates to the SOW. Approved units of work will be organized by FCMAT/CSIS in the backlog for implementation.

In some years, a major a new data collection must be implemented to meet a new state or federal requirement, or a major change to an existing set of data must be made to address issues related to way the data are currently collected. These changes require dedicated project management, and often includes significant input from vendors and users, user acceptance testing, go/no-go assessment, targeted communications, and training. For 2023-24, the following major projects will be implemented (ready for 23-24):

- CR 1648: SPED Redesign (Goal 3)
- CR 2313: Add New TK (Transitional Kindergarten) Grade Level (Goal 2)
- See Appendix D for change requests related to language codes (Goal 2)

In addition to the enhancement priorities identified above to meet business or legislative requirements, CDE has identified critical technical changes and deem them to be a high priority to improve system performance/user experience. The CDE will develop the proof of concept specifically for these identified solutions, and then will work in collaboration with FCMAT/CSIS on a development/implementation plan depending on available CDE and FCMAT/CSIS resources to include:

- CR 2282: Implementation of Data Discrepancy functionality (Goals 2, 3)

- CR 2265: MID Detection/Online Search/SSID Match Tool – Enhance Matching Logic to Include Probabilistic Matching using Elasticsearch (Goals 2,3)
- CR 1852: Course and Staff Data Redesign – Redesign of the course data collection for Cradle-to-Career readiness. CR 1852 is a continuation of vetting requirements with COO and FCMAT/CSIS in 23-24 with implementation TBD (Goal 2)
- CR 1757: Modify the CALPADS reporting structure for the CALPADS ODS reports to greatly reduce amount of time LEA users must wait for refreshed ODS Reports. (Goals 1, 2)

Changes will be scheduled for releases through the release management process and integrated into the workplan while maximizing available resources. Through the release management process, CDE and FCMAT/CSIS will work together to revisit the SOW to ensure the SOW is updated quarterly to accurately reflect the agreements of the work priorities above.

Additionally, the TSD's ADMO, and School and Student Data Systems Office (SSDSO) will be developing, testing changes, and streaming changes into CALPADS that will require working with COO and FCMAT/CSIS including:

- Student search Application Program Interface (API) that will enable Student Information Systems (SIS) vendors to implement a search feature. This system-to-system interface will enable LEAs to search for transfer students, acquire, and populate the SIS with appropriate SSIDs without manually logging into CALPADS.
- Enhancements to metrics and reports for the CALPADS administrative tool/dashboard

Additional testing by LEAs prior to software releases is desirable as it helps to identify deficiencies and bugs sooner with actual LEA data examples and the opportunity to take corrective action sooner. This approach is necessarily reliant on LEAs to participate. The CDE and FCMAT/CSIS will jointly support recruitment of LEAs for the purpose of increasing their engagement in the testing effort. To facilitate preparedness for software releases, FCMAT/CSIS will share information about software readiness for Fall 1, Fall 2, and EOY 1-4 that will include testing status and recommendation for go/no-go. This is expected to be a collaborative approach so that the CDE and FCMAT/CSIS can assess release risks and discuss mitigation and/or contingency plans.

Appendix B – Change Requests for 2023-4

As part of the CALPADS team, CSIS worked with the CDE on long-term planning priorities. Some change requests were for future implementation, and some were withdrawn after analysis was started or rejected during analysis. The list below includes change requests for 2023-24 as part of the approved SOW and modified and approved per Section 1.4 of the SOW as part of the quarterly review process.

*Table below also includes Change Requests through June 30, 2024 to encompass the entire 2023-24 academic year of changes added and their disposition.

CR	Project/Change and Target Release Month to Production (Subject to change based on CDE direction; Approved changes to be reflected in quarterly SOW revisions)	Status
July 2023 Releases		
2140	Retire TD (Toddlers) Grade Level and Modify IN (Infant) Grade Level Definition to Include Toddlers	10/1/2023 - Implemented
2146	Language Code Set - Migrate to ISO 639-2 Codes and specific dialects under ISO 639.3	10/1/2023 - Implemented
2171	SPED Redesign - Add two new ODS reports for Fall 1 - Unduplicated students by Solely Low Incidence Disabilities (dis1 or dis2) by DSEA and associated student list	10/1/2023 – Added; Implemented
2256	SSID Extract - Add Initial US School Enrollment from SINP	10/1/2023 - Implemented
2257	SSID extract needs additional select date option for SSIDs issued to this LEA	10/1/2023 - Implemented
2313	Add new TK (Transitional Kindergarten) Grade Level (AB 181) and Revise KN (Kindergarten) Definition (Part 1 – Grade Level Only)	10/1/2023 - Implemented
2368	TOM Exports Modifications for 23-24 - Phase 1 (July 1, 2023)	10/1/2023 - Implemented
2376	SPED Redesign - Modify Parent Involvement Facilitation Code to be required when evaluation type code = 10 or plan review = Y (MEET0398)	10/1/2023 – Added; Implemented
2398	Create Validations for Degree of Support 1 and 2 if populated needs to require certain disability	10/1/2023 – Added; Implemented
2425	Direct Certification: Include E156 (Grade 12 Continuing Education) in Logic (Same Rules as E155)	10/1/2023 – Added; Implemented
2441	Modify Foster Reports 5.6-5.9 to include 2 AYS	10/1/2023 – Added; Implemented
2448	Emergency CR: Modify SENR0622 to reduce age limitations for TK (SB-114)	10/1/2023 – Added; Implemented
August 2023 Releases		
2282	Modify Data Discrepancy UI/Extract - Enhancements and Fixes	1/22/2024 – Added; Implemented
2310	Add school filter to SSID Match tool to allow school-level users security	10/1/2023 - Implemented
2327	Add safeguard for Merging MIDs when SSIDs belong to two students	10/1/2023 - Implemented

CR	Project/Change and Target Release Month to Production (Subject to change based on CDE direction; Approved changes to be reflected in quarterly SOW revisions)	Status
2334	Student Details Page Header - Add Most Recent ELAS Status for Student	1/22/2024 – Added; Implemented
2389	Add new SELA Validation (File Input) to Prevent EL (or IFEP) Record with Correction Reason Code If It's the Only SELA Record	10/1/2023 – Added; Implemented
2422	TOM Exports Modifications for 23-24 - Phase 2 (August 1, 2023)	10/1/2023 - Implemented
2447	SPED Redesign - Add two new fall 1 DD/CDDs for Special Education Plan Reason Code 4 - Adoption Different Plan Type	10/1/2023 – Added; Implemented
September 2023 Releases		
1648	Umbrella - SPED Data Collection Redesign	10/1/2023 – Implemented Fall 1
1904	Modify CERT 142 and CERT143 to allow for pre-enrollments in future AY and change back to Fatal	10/1/2023 – Added; Implemented
1935	Add two new fields to the SPED file for 22-23 to capture Disability 1 Severity and Disability 2 Severity and new Disability Severity Code Set	10/1/2023 – Added; Implemented
1940	Add Parent Ed Level for each parent/guardian (SED Updates Needed)	10/1/2023 - Implemented
1995	Modify SINF0060 (Student Initial US School Enrollment Date K-12 Greater Than Student's earliest K-12 Enrollment Start Date) to Exclude N470 and Change Severity from W to F	10/1/2023 - Implemented
2153	SPED Redesign: Add Monitoring/separate report to require subsequent enrollments for students exited who are Pending Initial Evaluation	10/1/2023 - Implemented
2190	ERD and E400: Modify E400 ERD Logic to only Trigger for Grades 01-12	10/1/2023 - Implemented
2230	Umbrella: Modify Reports 1.17, 1.18, 1.19, 1.20, CA 1.17 logic to include 4-year old KN students (modified dates)	10/1/2023 - Implemented
2250	Modify TOMS export logic to check for SPED exit date from any LEA when LEA's SPED records are not most recent	10/1/2023 - Implemented
2264	Report 1.17 request to add extra filter for Active IEP (Y/N - Education Plan Type = 100) to Assist with DA/LCAP data	10/1/2023 - Implemented
2275	2023-2024: Modify Reports 1.17, 1.18, 1.19, 1.20, CA 1.17 logic to include 4-year old KN students (modified dates)	10/1/2023 - Implemented
2290	Modify SINF0551-0555 (Missing Guardian Names) to Apply on Input (within file) and Change to Severity to Fatal	10/1/2023 - Implemented
2313	Add new TK (Transitional Kindergarten) Grade Level (AB 181) and Revise KN (Kindergarten) Definition (Part 2 – All Fall 1 Impacts)	10/1/2023 - Implemented
2315	Add New AP Course Codes for 2023-24	10/1/2023 - Implemented
2342	CDD SPRG0550F1 - Update Trigger to look at most recent SELA over Census Day and Change Severity back to Fatal	10/1/2023 - Implemented
2351	Add new School Completion Status Code for Alternate Diploma for SWD and Update Associated VCC	10/1/2023 - Implemented

CR	Project/Change and Target Release Month to Production (Subject to change based on CDE direction; Approved changes to be reflected in quarterly SOW revisions)	Status
2358	SB-532 - Collection of Graduates with Exemptions	10/1/2023 - Implemented
2374	Add new Non-participation Reason Code for SWDS file - No evaluation Needed determined by IFSP	10/1/2023 - Implemented
2382	Change ODS extract security to allow View Role	10/1/2023 – Approved
2387	Make modifications to CTE Course Codes in the Arts Media and Entertainment Industry Sector for 2023-24	10/1/2023 - Implemented
2399	TOM Exports Modifications for 23-24 - Phase 3 (Mid-Sept 2023)	10/1/2023 - Implemented
2400	Modify Reason for Plan Code 3- Adoption and add new code 4.	10/1/2023 – Added; Implemented
2402	Convert CVRs to DD/CDDs: Fall1	10/1/2023 - Implemented
2422	TOM Exports Modifications for 23-24 - Phase 2 (August 1, 2023)	10/1/2023 - Implemented
2429	Fall 1 2023-2024 SN Report Changes - TK, SPED, Grad Exemption, Parent/Guardian2 Highest Ed Level, etc.	10/1/2023 – Added; Implemented
2430	Documentation Only: Modify Definitions Disability Degree of Support Codes MMSN and ESN	10/1/2023 – Added; Implemented
2431	Modify the PLAN File: Remove Parent/Guardian Plan Approval Code" field	10/1/2023 – Added; Implemented
2432	Documentation Only: Modify definition of Pending as of Date in MEET record	10/1/2023 – Added; Implemented
2436	Modify SENR0056F1 DD/CDD to not trigger if student has an SWDS record	10/1/2023 – Added; Implemented
2442	Fall 1 23-24: create SINF0060 F1 version/change to fatal and modify SINF0059 age restrictions	10/1/2023 – Added; Implemented
2444	SPED Redesign -Modify Valid Code Combination for Status and Non-participation reason	10/1/2023 – Added; Implemented
2445	SPED redesign - Modify code set definition Reason for Plan Code - 3 - Adoption Same Plan Type - -to include changes to organizational structure	10/1/2023 – Added; Implemented
2452	Modify Data Discrepancy Processes - Backend event sequences	10/1/2023 – Added; Implemented
2457	Add SENR0439F1 using PLAN and SWDS files	10/1/2023 – Added; Implemented
2458	Add new Validation to prevent Education plan 300, 700, 800, 900 from being submitted on the PLAN file	10/1/2023 – Added; Implemented
2460	Modify code name for Non-participation reason code 25 Exited SPED Out of State	10/1/2023 – Added; Implemented
2462	Documentation only: Modify definition of Non Participation Reason Code 24 - Withdrawal	10/1/2023 – Added; Implemented
2463	Documentation Only: Modify definition of Special Education Status Code 3 -Eligible, Not Enrolled and Non-Participation Reason Code 31 - Left School, Not Expected to Return	10/1/2023 – Added; Implemented

CR	Project/Change and Target Release Month to Production (Subject to change based on CDE direction; Approved changes to be reflected in quarterly SOW revisions)	Status
2464	Modify name of Special Education Service Location Code 210 - Home, instruction based on IEP team determination	10/1/2023 – Added; Implemented
2466	Remove middle name from Elasticsearch matching logic	1/22/2024 – Added; Implemented
2467	Documentation Only: Modify definition for Special Education Status = 2 Eligible and Not Participated	10/1/2023 – Added; Implemented
2470	DOC ONLY - Update Highest Level of Education Code 15 (Decline to State) Definition to Include Info Unavailable	10/1/2023 – Added; Implemented
2472	Add new Fatal Fall 1 DD/CDD - Invalid SWDS status and Student Exit Reason Code	10/1/2023 – Added; Implemented
October 2023 Releases		
1260	Fall 2: Reenable CERT108 and Change Severity to Fatal	1/22/2024 – Added; Implemented
2227	EOY 1 - ODS Report Updates	10/1/2023 – Approved 1/22/2024 – Moved forward with only migrating top 20 ODS reports to new architect based on user feedback; no EOY 1 ODS reports are being migrated over; CR closed.
2228	EOY 2 - ODS Report Updates	10/1/2023 – Approved 1/22/2024 – Moved forward with only migrating top 20 ODS reports to new architect based on user feedback; only two are EOY 2 ODS reports are being migrated over.
2229	EOY 3 - ODS Report Updates	10/1/2023 – Approved 1/22/2024 – Moved forward with only migrating top 20 ODS reports to new architect based on user feedback; no EOY 3 ODS reports (does not include cohort) are being migrated over; CR closed.
2232	EOY 4 - ODS Report Updates	10/1/2023 – Approved

CR	Project/Change and Target Release Month to Production (Subject to change based on CDE direction; Approved changes to be reflected in quarterly SOW revisions)	Status
		1/22/2024 – Moved forward with only migrating top 20 ODS reports to new architect based on user feedback; there were no EOY 4 ODS reports (does not include monitoring reports) due to SPED redesign; CR closed.
2233	Fall1 - ODS Report Updates	10/1/2023 – Approved 1/22/2024 – Moved forward with only migrating top 20 ODS reports to new architect based on user feedback; majority are Fall 1 ODS reports; 75% complete.
2247	New IVR to only allow one Class ID per Course Section ID	1/22/2024 – Added; Implemented
2363	Clean up Course Group Master Combo document and backend reference tables	1/22/2024 – Added; Implemented
2370	Modify SDEM0200 to include Employment Start/End Dates in use of validation	10/1/2023 - Added
2377	Fall 2 Supporting Extracts: New Extract for SN 2.7	1/22/2024 – Added; Implemented
2393	Fall 1: Two new Supporting Report Extracts (Aggregate 1.17, Detail 2.10)	10/1/2023 – In Progress 1/22/2024 - Implemented
2450	Modify Data Discrepancy UI/Extract - Enhancements and Fixes Part Deux	10/1/2023 – Added 1/22/2024 – In Progress; priority items implemented 4/26/2024 - Implemented
2452	Modify Data Discrepancy Processes - Backend event sequences	1/22/2024 – Added; Implemented
2474	SSID Match Tool - Enhance Elasticsearch Middle Name matching	10/1/2023 – Added 1/22/2024 – Implemented
2476	SSID Match Tool - Enhance Elasticsearch hyphenated Names	10/1/2023 – Added 1/22/2024 – Implemented

CR	Project/Change and Target Release Month to Production (Subject to change based on CDE direction; Approved changes to be reflected in quarterly SOW revisions)	Status
2483	CENR ODS Extract - Updates for SED, SWD, and TK	1/22/2024 – Added; Implemented
2486	Add button on PLAN, SERV, MEET, SWDS ODS download extracts to add multi-select filter for SWDS status	1/22/2024 – Added; Implemented
2488	Remove Parental Involvement Facilitation Code from SN and SELPA 16.14	1/22/2024 – Added; Implemented
2489	Modify GERR0005 SWDS, PLAN, SERV to not trigger if effective start date june, july, august AND DD/CDD no enrollment for SWDS E&P with Plan at LEA.	1/22/2024 – Added; Implemented
2491	Modify MEET0436F1 -Error Description and Trigger	1/22/2024 – Added; Implemented
2492	Temporarily disable PLAN0619F1 and modify trigger then reenable	1/22/2024 – Added; Implemented
2494	Fall 2: Convert CERT174 (Course identified as Special Education with no SWD enrolled) to F2&E1 CDD and Modify Trigger Logic (Look for at least one MEET record)	1/22/2024 – Added; Implemented
2501	Modify VCC Special education Status - Non-Participation Reason Code Combo to add 4 Not Eligible -31 Left school not expected to return	1/22/2024 – Added; Implemented
November 2023 Releases		
689	Create new IVR (Fatal) to prevent use of E230/480 completer/matriculated exit for grade 12	1/22/2024 – Added; Implemented
1282	ODS Reports: Modify CALPADS Business Rules for Ethnicity/Race Roll-up to Match DataQuest	1/22/2024 – Added; In Progress 4/26/2024 – Closed/Withdrawn – CR outdated
2241	Modify Valid Code Combination for CrsGrpSt - DeptStndsGrdLvlRange to consider Course Instructional Level Code or Add New Validation	1/22/2024 - Implemented
2367	Fall 2: Update SCSE0139F2 Severity to Fatal	1/22/2024 - Implemented
2370	Modify SDEM0200 to include Employment Start/End Dates in use of validation	1/22/2024 – Added; Implemented
2372	Fall 2: Update SCSE0128 Severity to Fatal, Change Error # SCSE0128F2 and Modify Trigger Logic for Current AY	1/22/2024 - Implemented
2403	Convert CVRs to DD/CDDs: Fall2	1/22/2024 – Added; Implemented
2480	Inability to Add Pending MEET For Late IEP Into CALPADS	1/22/2024 – Added; Implemented
2482	Fall 2 2023-2024 Report Changes - TK, Other Changes (SN, C/A, Supporting Extracts)	1/22/2024 – Added; Implemented
