

Learn Do Repeat

3-week micro-internship

Apply Now

Our Why

We have something to give. CSIS advances equity by building data systems and making data more accessible. The CSIS Sprinternship program began as an opportunity for us to share our mission of **Better Data, Better Schools™**.

We're proud of the diversity within our organization. Our Sprinternship program team has decades of experience using agile-scrum and leading edge devops automations.

We want to reach out to the next generation because opportunities to join innovative teams working on large-scale, pro-social projects are often overlooked by job seekers.

The Program

Learn. Take advantage of skill-building group sessions* and personal mentoring sessions.

Do. Use what you've learned to complete Sprinternship tasks. Get exclusive access to 100% of our sprint ceremonies and see how we use agile to build large-scale data systems for the State of California.

Repeat. Complete your first sprint, interview, and come code, test, or run a sprint with us.

*Sample Sessions

- Intro to Scrum Master
- Requirements Analysis
- User Story Development
- Loopback: How Bugs Help You Ship Better Software
- A Mentor: What it is, Why you need one
- How to Win Your First Day
- Career Plan/Resume Building

Seats are limited. Cohorts are designed to be small, and the program is 100% virtual. Interns who have completed our micro-accelerator program say it takes them about 30 hours.

Our program runs **June, July, and August**, Mondays through Fridays, except for holidays (6/19 & 7/4).

Now accepting high school seniors, college students, early career, or pre-career interns.

Unlock Exclusive Benefits

Mentoring: Want a little extra support the next 6 months? *We're here for you.*

Certificate of Completion: Finishers get a block-chain verified badge. One-click share to your socials or embed on your resume.

Industry Partners

Let's talk. We are currently seeking partners who are interested in joining or growing our internship program.

Career Tech-ED (CTE) Opportunity

We are currently seeking partners who are looking to place their CTE high school students in our internship program for our **June, July, and August 2024** cohorts.

ABOUT OUR FINANCIAL SYSTEMS PROJECTS

LEADERSHIP

FISCAL HEALTH

LOCAL CONTROL

FUNDING

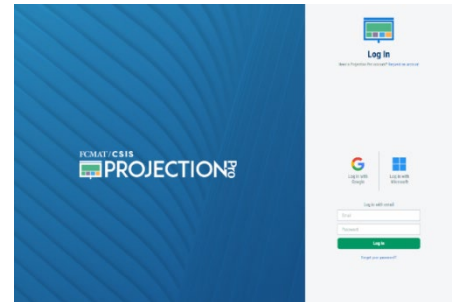

FORMULA (LCFF)

EQUITY

ACCOUNTABILITY

In 2022, FCMAT launched the web-based **SACS System**, modernizing the statewide uniform financial reporting software for K-12 charter schools, districts and county offices of education. SACS improves the ability of policy makers, educators, and the public to analyze education revenues and expenditures.

Projection-Pro is the multiyear financial projection (MYP) software application that enables district staff to create, review, share and collaborate on their multiyear and cash flow projections to help improve fiscal health.

ABOUT OUR STUDENT SYSTEMS PROJECTS

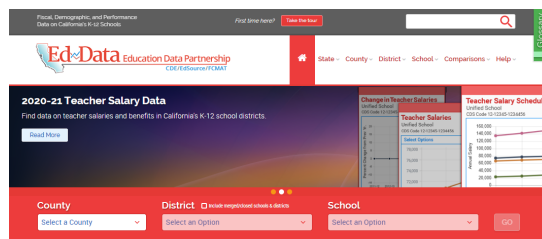

As part of the Governing Board, CSIS assists the state in its ambitious data modernization project to create decision-quality data fabric for policy makers and researchers and a suite of college planning and financial aid tools for students and families to realize a brighter future.

STUDENT

ACHIEVEMENT

TRANSPARENCY

The [Ed-Data website](#) offers quick access to comprehensive data visualizations, from academic performance to financials, about K-12 education in California.

CALPADS is a statewide longitudinal data system of student demographics, courses, attendance, discipline, assessments; staff assignments; and other data for state and federal reporting.

ABOUT US

Fiscal Crisis & Management Assistance Team (FCMAT) was established by AB1200 in 1992 as a service to assist local education agencies in complying with fiscal accountability standards. FCMAT is an independent, state funded agency. California School Information Services (CSIS) is a service of FCMAT. We are passionate about nurturing a strong data culture, including building modern software and tools, sharing what we know, and supporting local educational agencies' use of data to inform decision making and improve student achievement.
